

PRESS RELEASE

I-Quest Ltd, 117 Waterloo Road London SE1 8UL.

26th August 2009

Document and Content Management Provider I-Quest, sign Reseller agreement with Xerox DocuShare for the UK and Ireland.

I-Quest Ltd, announce today their partnership with Xerox DocuShare to provide Content Management Solutions to Legal and Financial markets, Government both local and central and all Professional Business sectors across the UK and Ireland.

I-Quest have a reputation for providing high quality solutions and services to Law, Property and Financial firms, of all sizes. I-Quest intend to offer Xerox DocuShare 6.0 to all size firms from the largest Investment Banks and Government departments to SME's. Xerox DocuShare 6.0 is a cost effective solution for all size firms, the low entry point and flexible pricing model makes it especially attractive to departments of large organisations with the option to roll out across the enterprise over a period of time. DocuShare 6.0 pricing is also attractive to the SME end of the market where there is limited choice for high quality content management solutions.

Kevin Mackay, CTO and MD of I-Quest said, "We are pleased to have Xerox DocuShare in our portfolio. We have hundreds of small/medium law firms using our other solutions and we will be offering them the opportunity to trial Xerox DocuShare in the near future".

Xerox DocuShare see I-Quest as a strategic player in the legal arena, with their vast experience and knowledge. "Xerox DocuShare is a well know brand in most other markets with thousands of clients large and small worldwide with the exception of legal, this we hope to change in the UK and Ireland with the partnership with I-Quest" said Nigel Whitmore Regional Sales Manager for Xerox DocuShare.

About I-Quest Ltd.

I-Quest provides Content, Document, Practice, Case and Records management to Law, Property, and Financial firms of all sizes. I-Quest also provides Document Comparison, Workflow, Scanning, Imaging, OCR plus all the associated services and support. I-Quest is now in it's seventh year and has a wealth of knowledge and experience in providing complete solutions to all markets.
